7 Select Yes to start Bluetooth pairing
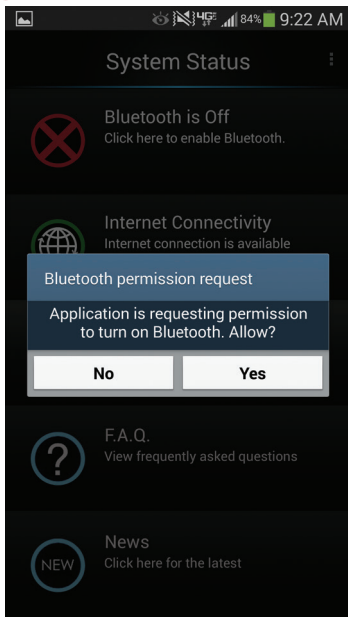

**8** Confirm connectivity

FP3 Application will find nearest unlinked FP3 and pair with that device. Verify that the last 6 digits coincide with your vehicle's last digits in the VIN. Select OK to confirm passkey when prompted. When paired successfully, system will show ready and redirect to Main Menu.
9 Map Lookup

10 Flash Map

Now begin the Map Lookup process to search for the Fuelpak FP3 map for your motorcycle. The first time you flash a map to your ECU, the Fuelpak FP3 will be permanently married to that "VIN" number.

iOS GUIDE

5 Select Settings Icon

6 Select Bluetooth under the Settings menu

7 Turn on Bluetooth and connect
Ensure the Bluetooth toggle switch is in the "on" position. Then select the device label "VIN" ending with the last 6 digits of your motorcycle's VIN number. "Connected" will appear on the right side once the device has successfully paired with the Fuelpak FP3.

8 Start the Fuelpak FP3 App

Open the Fuelpak FP3 Application.

9 Confirm connectivity

10 Map Lookup

Ensure Bluetooth is connected and your device has an active internet connection.

Now begin the Map Lookup process to search for the Fuelpak FP3 map for your motorcycle. The first time you flash a map to your ECU, the Fuelpak FP3 will be permanently married to that "VIN" number.
